

Ohio 60 median improvements

- **What:** Crews will remove existing poor-conditioned guardrails along Ohio 60 under Ohio 2 with a concrete median barrier. They will also replace an existing traffic island on Ohio 60 between Holiday Drive and Kneisel Road with pavement and channelizing lines. Channelizing lines are wide or double solid white lines used to form islands where traffic in the same direction of travel is permitted on both sides of the island.
- **When:** Work should start this month and end by June.
- **Traffic impact:** Traffic will be maintained at all times.
